Full Stack Developer | Vue.js + Laravel · UTC+1

EDUCATION

- Software Engineering Degree — 1st Year**2025 – 2028
- Institut International de Technologie (IIT) — Sfax
 - Relevant Coursework: Linux System Administration, C Programming, Web Development, Databases, Python, Networking (CCNA)
- Bachelor of Computer Science**2022 – 2025
- Faculty of Sciences Sfax — Tunisia
 - Strong foundation in Algorithms, Databases, Web Development, and Linux Systems

EXPERIENCE

- Blockchain Developer — End-of-Study Internship**Feb 2025 – May 2025
- KUSA Tunisia — Sfax
 - Architected and deployed an ERC-721 NFT smart contract on the Sepolia testnet using Solidity and OpenZeppelin, implementing secure minting and transfer logic for a decentralized application.
 - Built a complete web application integrating Angular/Ionic frontend, Ethers.js, and Express.js + MongoDB backend.

Stack: Solidity · Angular 19 · Ionic · Ethers.js · Hardhat · MongoDB · Express.js · Postman · JWT
- Front-end Developer — Summer Internship**Jun 2023 – Aug 2023
- Djagora Foundation — Sfax, Tunisia
 - Developed a digital psycho-educational assessment platform using Angular 15, replacing manual paper-based processes.
 - Converted Figma designs into a fully responsive, pixel-perfect web application using Bootstrap 4.

Stack: Angular 15 · TypeScript · Bootstrap 4 · CreateJS · Figma

PROJECTS

- Restaurant ERP System**
- Full-stack restaurant management platform with multi-role access for admins, restaurant owners, and customers.
 - Built a complete restaurant management system with menu management, reservations, order tracking, and real-time analytics dashboards.
 - Implemented role-based authentication and authorization for three user types with secure workflows.
 - Developed a modern, responsive SPA using Vue 3, Inertia.js, and Laravel with light/dark mode support.
 - Designed relational database architecture and RESTful APIs to handle restaurants, orders, and user data efficiently.

Stack: Vue.js 3 · PHP · PHPUnit · Laravel · Inertia.js · Vuetify · MySQL · Docker
- Windows XP Portfolio** [Live Demo](#)
- Interactive Windows XP themed portfolio built from scratch to showcase low-level frontend skills.
 - Created reusable UI components (modals, tabs, start menu, PDF viewer) using native Web Components API.
 - Implemented draggable and resizable windows with pure vanilla JavaScript.
 - Deployed using Parcel with a one-command build process.

Stack: Vanilla JS · Web Components · Shadow DOM · Parcel · GitHub Pages

SKILLS

- Frontend**Vue 3 · Inertia.js · Vuetify · React · Angular · TypeScript · Tailwind CSS · Bootstrap
- Backend**Laravel · PHPUnit · Express.js · REST APIs · MySQL · MongoDB
- Tools**Github · Docker · Postman
- Languages**Arabic (native) · French (bilingual) · English (professional)
